## Setting Up A Teacher Account

To get started you will need to enter the code for your building.

Go to the Discovery Education Streaming site and click on the Passcode/New User tab.

Enter the code for your building.

On the next screen choose “**Create New Login**”

Complete the Login Access , Name and Email address sections, click the agree to terms and then click **continue** to create your account.

Once you complete the process you will be logged in to your Discovery Education account.

If you forget your password you can enter your email and have the system email you a reset request message. You click on the URL in the message and will be taken to a website where you can enter a new password.

## Setting up Student Accounts

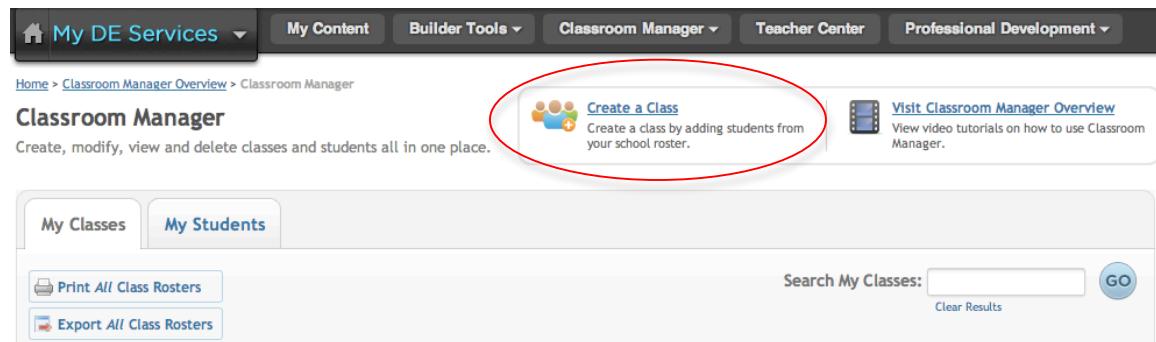

Student accounts are created in the Classroom Manager. In many cases your administrators will already have added the students to the system.

To add new students click on the classroom manager menu and choose My Classes.

You will need to create at least one class in order to add students.

Click **Create a Class**

Enter a Class name and optional description.

1. Enter Class Information \* Required

<p>* Class Name: <input type="text" value="Science Period 7"/> <span style="color: green;">✓</span></p> <p>Available</p>	<p>Class Description: <input type="text" value="Period 7 Science students"/></p> <p>Please limit to 100 characters.</p>
--	---

If student accounts already exist you choose them from the **“Add from School Roster”** tab. Otherwise click **“Add new students”**

Enter the required information for each student

Last Name, First Name, Username, Password and Grade.

You can add new lines for as many students as you need.

## 2. Add Students to Class

**Add from School Roster** **Add New Students**

Enter the student(s) information in the rows below.  
If you need to add more rows, click the "Add Row" button.

	<b>Add Row</b>	<b>* Last Name</b>	<b>* First Name</b>	<b>MI</b>	<b>* Username Must be unique</b>	<b>* Password Must be 5+ chars</b>	<b>ID</b>	<b>* Grade</b>	<b>Parent's Email</b>
Ex:		Doe	John	T	DoeJohnT	*****	12345678	7	MrsDoe@discor
1		Doe	Jane	B	ftms_jdoe Available	*****		7	MrsDoe@gmail.c
2									
3									
4									
5									

**Add Row** **Clear** **Add New Students**

When you have entered all the students click **Add New Students**.

## 3. Review and Save Class

**Class Roster: Science Period 7**

<input checked="" type="checkbox"/> All	Student Name	Grade
<input checked="" type="checkbox"/>	Joe, Citizen Q	6

Students in Class: 1 **Cancel** **Save**

Your students now appear in the Class roster in section 3 on the top right of your screen.

Choose **Save** to complete the process and save your class.

**Make a class for each of your classes.**

## Searching for Content

The most direct way to find resources on Discovery Streaming is to use the search box located at the top of the screen in the blue bar.

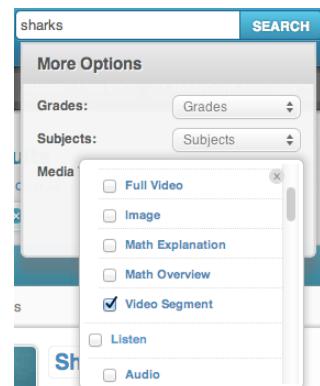

The screenshot shows the Discovery Streaming interface. At the top, there is a blue navigation bar with the Discovery Education logo, a NWCA logo, and a search bar containing the placeholder text "enter keyword(s)". Below the search bar are links for "Curriculum Standards Search" and "Advanced Search". The main content area features a "STREAMING" dropdown menu, "My Content", "Builder Tools", "Classroom Manager", "Teacher Center", and "Professional Development". A "Select a Grade:" dropdown is set to "K-2nd". Below this are five subject categories: English/Language Arts, Mathematics, Science, Social Studies, and Health, each with a representative image. To the left, there is a "Writing Prompts" section with a sub-section for "Kick start writing with a Writing Prompt". To the right, there is a "Tools and Resources" section with icons for Classroom Manager, Assignment Manager, Builder Tools, Content Collection, and STEM Connect.

Begin by entering keywords into the search box. The more options pane will open and allow you to refine your search.

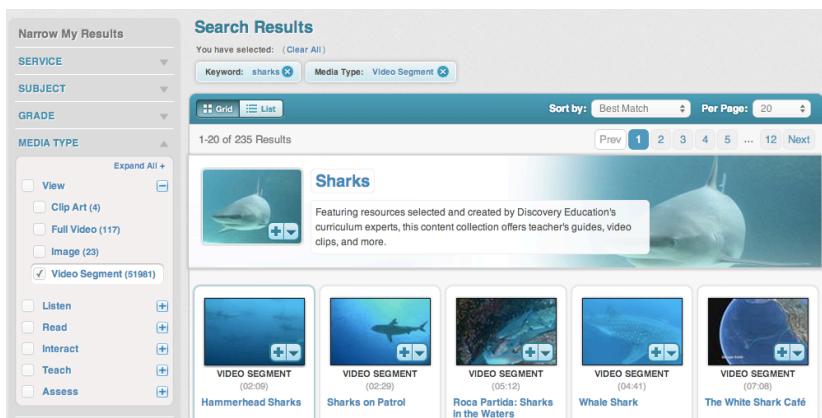

You can further filter your results by Grade Level, Subjects or Media Types.

In the search example type “sharks” (without the quotes) in the search box and choose “Video Segment” under media type.

You should have 235 results. The first item in this is a Content Collection, which is like a “best of” series of Shark videos. Below this are listed individual videos. You can view them as grid or as a list.

The screenshot shows the search results for "sharks". The search bar at the top contains "sharks" and a "SEARCH" button. Below the search bar is a "More Options" section with dropdown menus for "Grades" and "Subjects", and a "Media" section. The "Media" section is expanded, showing a list of media types with checkboxes: "Full Video", "Image", "Math Explanation", "Math Overview", "Video Segment" (which is checked), "Listen", and "Audio".

The screenshot shows the search results for "sharks". On the left, there is a "Narrow My Results" sidebar with dropdown menus for SERVICE, SUBJECT, GRADE, and MEDIA TYPE. Under MEDIA TYPE, "Video Segment" is selected. The main area is titled "Search Results" and shows a grid of results. At the top of the grid, there is a "Sharks" content collection card with a description: "Featuring resources selected and created by Discovery Education's curriculum experts, this content collection offers teacher's guides, video clips, and more." Below this are five individual video segment cards: "Hammerhead Sharks", "Sharks on Patrol", "Roca Partida: Sharks in the Waters", "Whale Shark", and "The White Shark Café". Each card includes a thumbnail image, the title, and a duration.

## Filtering Results

In our search for sharks we used one filter (Video Segment) you will notice at the top of the search results that these can be added to or removed.

**Search Results**

You have selected: (Clear All)

Keyword: sharks X      Media Type: Video Segment X

Our search query is for Keyword (Sharks) and filtered by Media Type (Video Segment) Click the X next to video segment and we will have all results.

**Narrow My Results**

**SERVICE**

**SUBJECT**

**GRADE**

**MEDIA TYPE**

Expand All +

<input type="checkbox"/> View	<input type="checkbox"/> Clip Art (4)	<input type="checkbox"/> Full Video (117)	<input type="checkbox"/> Image (23)	<input type="checkbox"/> Video Segment (235)
<input type="checkbox"/> Listen	<input type="checkbox"/> Read	<input type="checkbox"/> Interact	<input type="checkbox"/> Teach	<input type="checkbox"/> Assess

**LANGUAGE**

**VIDEO DETAIL**

**RELATED MATERIALS**

**BY SOURCE**

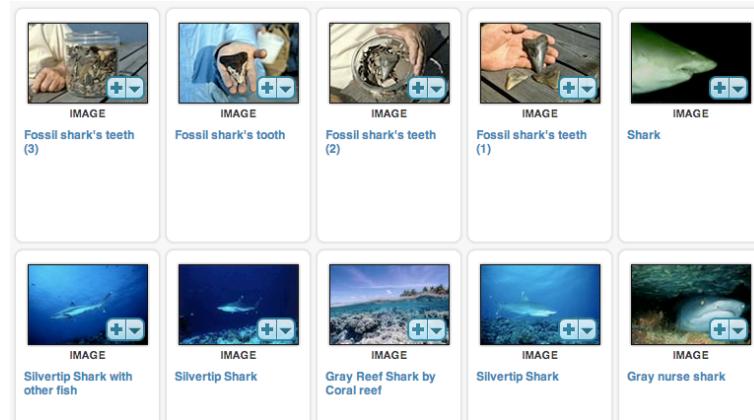

You should now have 421 results.

To add new filtering criteria use the **Narrow My Results** pane in the left column.

Choose Image from the Media type section.

You should now see the 23 images in the results window.

Each image is a high resolution image that can be downloaded to your computer. They are offered in 3 resolutions to suit your purpose.

Take note of the different types of media available, in addition to the images, **Full Video** clips are longer videos which would comprise a whole show or episode. **Video segments** are shorter (2mins) segments. There is also **clip art** available.

## Accessing Streaming Content

The content from Discovery Education can be streamed to a variety of devices. Depending on the device, several streaming choices are available.

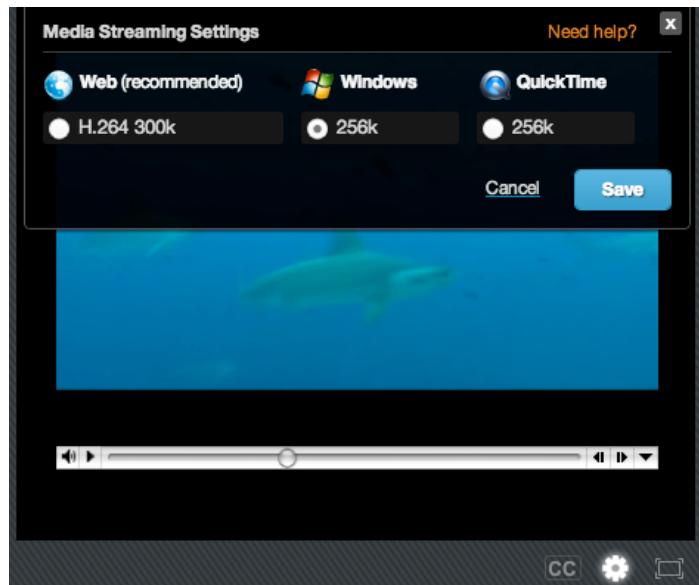

Click on the Hammerhead sharks video in your original query and the video will load in a popup screen.

You will see the main video is called Wild Deep:Galapagos and our Hammerhead segment is highlighted as the 5<sup>th</sup> section.

Click the play button in the middle of the preview screen to preview the video. You can expand to full

screen and turn up the sound to show this video as is to your class.

Note the media settings (Cog Icon) in the lower bar of the video screen.

You will see 3 choices for video streaming. The choice will depend on your operating system and what video decoders are installed.

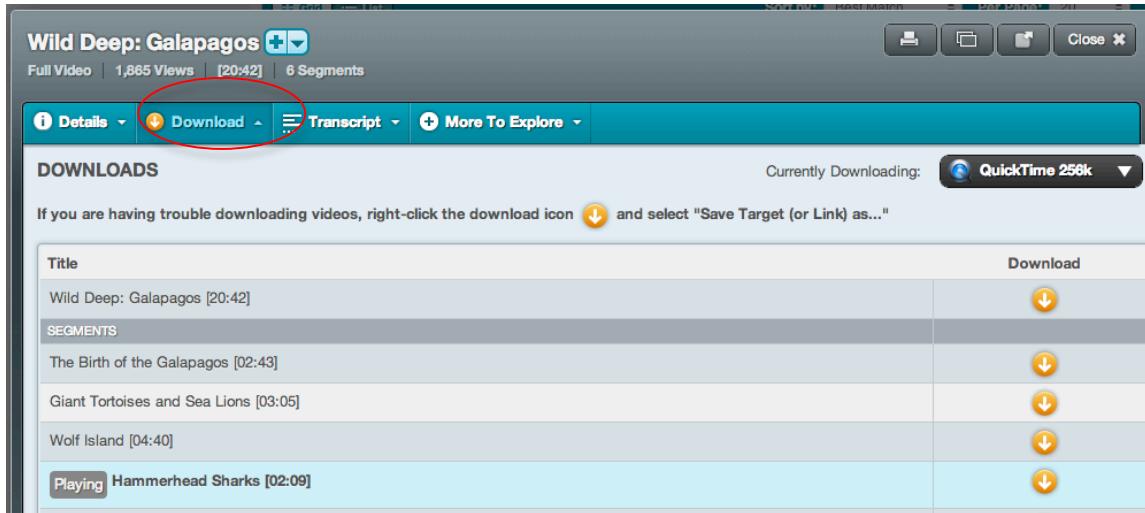

Tablet(e.g. iPad) users will want to choose the Web (H.264) option.

Windows users (unless they have Quicktime installed - comes with iTunes) should choose Windows

Mac users unless they have Flip for Mac installed) can choose Web or Quicktime.

## Downloading Video Content

Downloading of content can be done by clicking the Download Button on the top of the window.

Wild Deep: Galapagos [20:42]

Full Video | 1,865 Views | [20:42] | 6 Segments

Details Download Transcript More To Explore

Currently Downloading: QuickTime 256k

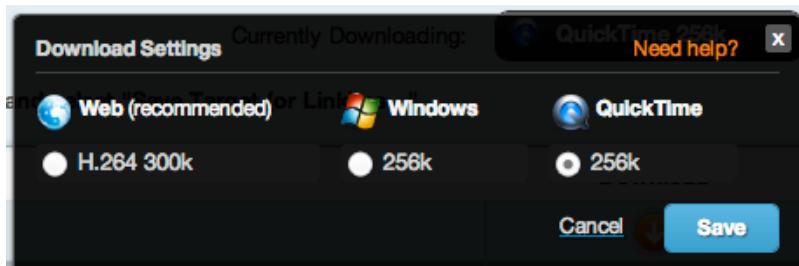

Downloads

If you are having trouble downloading videos, right-click the download icon and select "Save Target (or Link) as..."

Title	Download
Wild Deep: Galapagos [20:42]	
SEGMENTS	
The Birth of the Galapagos [02:43]	
Giant Tortoises and Sea Lions [03:05]	
Wolf Island [04:40]	
Playing Hammerhead Sharks [02:09]	

The download pane expands to give you options for downloading the video to your device. The video can then be imported into PowerPoint or Smart Notebook or played in Quicktime or Windows Media Player.

The options for download choice will again vary according to device. Click on the currently downloading button and the options will be displayed.

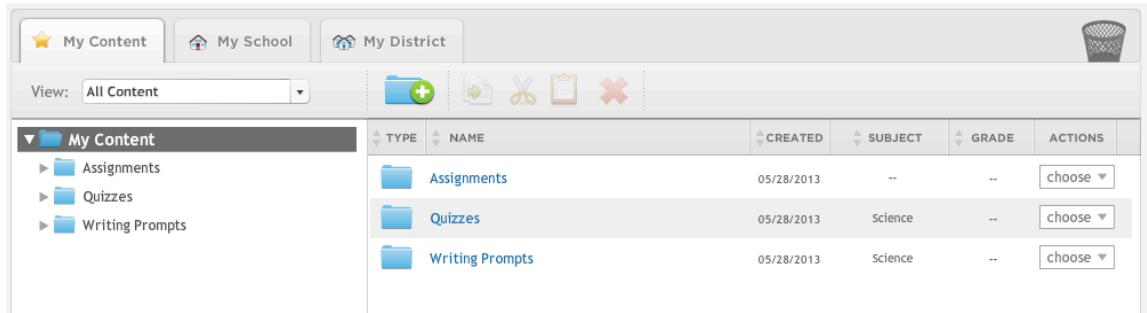

Save your choice (note: there are separate settings for download and streaming)

**Web:** .mp4 file which can be edited in MovieMaker or iMovie.

**Windows :** .wmv file which is compatible with Powerpoint and Smart Notebook.

**Quicktime:** .mov file which is compatible with Powerpoint and SmartNotebook on the mac.

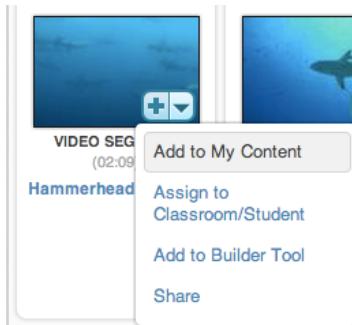

## My Content

The screenshot shows the 'My Content' section of a software interface. At the top, there are tabs for 'My Content', 'My School', and 'My District'. Below the tabs, a 'View' dropdown is set to 'All Content'. A toolbar with icons for creating new content and managing existing content follows. On the left, a sidebar shows a folder structure under 'My Content' with 'Assignments', 'Quizzes', and 'Writing Prompts'. On the right, a table lists these items with columns for Type, Name, Created, Subject, Grade, and Actions. Each item has a 'choose' button in the Actions column.

Type	Name	Created	Subject	Grade	Actions
Assignments		05/28/2013	--	--	<button>choose</button>
Quizzes		05/28/2013	Science	--	<button>choose</button>
Writing Prompts		05/28/2013	Science	--	<button>choose</button>

My content is where you can save videos for later use. You also store content from Builder Tools in my content.

To save a video for later use, click on the right side action button and choose **Add to My Content**

You can put it into an existing folder or create a new one for each project (e.g. Shark Week)

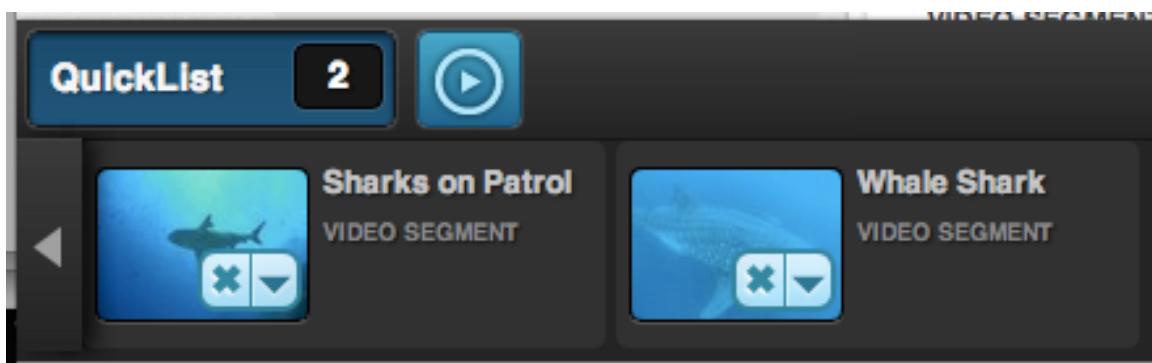

## QuickList

The plus button on the left of the action menu will add the video to your Quicklist.

The quick list is revealed by clicking the quicklist button on the bottom left of your screen.

The quicklist can be played to your class as a playlist.

## Builder Tools

The builder tools allow you to take DE content and create Assignments, Writing Prompts and Quizzes for you to use with your students.

### Assignment Builder

Build and store assignments for your students that use Discovery Education curriculum content.

[My Assignments](#)

[Create New Assignment](#)

### Quiz Builder

Incorporate video clips into interactive quizzes with Discovery Education Quiz Builder!
